

ACES – HEARing CRC Workshop

Characterising Electrode Materials and Processes

October 7, 2015

Royal Victorian Eye and Ear Hospital

Join us for a half-day electrochemistry workshop featuring talks from ACES and HEARing CRC researchers.

Join ACES and HEARing CRC researchers for a half-day workshop

Dear Colleague,

Links between researchers at the ARC Centre of Excellence for Electromaterials Science (ACES) and the HEARing CRC have been a vital driver of research achievement.

You are invited to an ACES and HEARing CRC event, a half-day workshop on Characterising Electrode Materials and Processes.

Wednesday October 7, 2015

1.30pm – 5.00pm

Royal Victorian Eye and Ear Hospital

32 Gisborne St, East Melbourne, VIC.

Speakers:

- **Professor Gordon Wallace** (ACES) - an introduction to ACES and Electromaterials
- **Doctor Carrie Newbold** (HEARing CRC) – an introduction to HEARing CRC
- **Doctor Alex Harris** (ACES/HEARing CRC)) – electrochemical analysis
- **Doctor Paul Molino** (ACES) – electrochemical quartz crystal microbalance
- **Associate Professor Michael Higgins** (ACES) – electrochemical AFM

Please [register to attend](#) by September 11, 2015. Registration is \$50/attendee. More information at www.electromaterials.edu.au.

Best Wishes

Gordon Wallace & Carrie Newbold
ACES & HEARing CRC
